

BECOMING SPIRITIZED

Are we drawn toward God?

14:2.7 (155.1) All spirit values and spiritual personalities are unceasingly drawn inward towards the abode of the Gods. This Godward urge is intense and inescapable. The ambition to attain God is stronger in the central universe, not because spirit gravity is stronger than in the outlying universes, but because those beings who have attained Havona are more fully spiritualized and hence more responsive to the ever-present action of the universal spirit-gravity pull of the Eternal Son.

How do we change in the next life?

As we journey through the universe, we literally come closer to the central abode (home) of God. More importantly, our desire to get to know God, and work in partnership with God, increases. As this happens, we transform from material creatures, to partially material beings, and then become fully spiritized beings. The more spiritized we are, the more we feel a pull, or desire, to get to know God.

Answer key is on our website

- DOG _____
- IITSPR _____
- UHANM _____
- NGTNIHK _____
- OADRWGD _____

Why is this important?

Have you ever felt like God isn't very relevant to your life? Have you ever struggled to see the point of getting to know God? This is perfectly normal, because you are at the very beginning of your spiritual existence. You are, pretty much, the farthest from God that you will ever be. So when you have a decision to make, invite God into your thinking. When something good happens, tell God about your gratitude. When you're feeling low, ask God for comfort. Do this, and within your lifetime you will be able to look back and see a change. You will be glad to have gotten to know this divine friend.

Who would you like to be in thirty years?
